

The Prince George's County  
Department of Environmental Resources,  
Town of Berwyn Heights  
and the Citizens to Conserve and  
Restore Indian Creek invite you to  
join us for the Stream Teams . . .

# Rain Gardens Workshop

**Saturday,  
September 11, 2004**

**9:00 am — 2:00 pm**

**Rain Date — Sunday, September 12, 2004**

**Berwyn Heights Town Hall  
5700 Berwyn Road**

**Volunteer for your community and  
get a free plant to start your own  
Rain Garden!**

## What do you need to bring?

A bag lunch — we will provide beverages and light refreshments.  
Wear comfortable clothes — we'll be working outside on Rain Gardens!

## What are we going to do?

The Department of Environmental Resources has received grant funding from the U.S. Environmental Protection Agency to reduce pollutants by installing Rain Gardens to catch stormwater from parking lots and rooftops. Two Rain Gardens will be installed at the Town Hall parking lot. We need volunteers to help plant these Rain Gardens with shrubs and perennials. Come join us and receive a free native plant!

## What is a Rain Garden?

Rain Gardens are landscaped areas that improve water quality by using plants and soil to remove pollutants from rainwater.

## Don't forget to pre-register!

This workshop is **free** and open to the public,  
but space is limited!

Please pre-register by contacting  
Sharon Meigs, 301-883-5898, [slmeigs@co.pg.md.us](mailto:slmeigs@co.pg.md.us)  
Children under 16 must be accompanied by an adult
